

# Remote Learning in 2021

## What has changed since last lockdown?

## What has changed since last lockdown?

All pupils have been using GLOW & Microsoft Teams in all classes since August 2020, and are familiar with the software and how to use it for learning. [Click for help with GLOW.](#)

Teachers will [facilitate an online lesson](#). Online learning is a mix of teacher input, and self-directed tasks. To learn effectively, self-discipline is needed.

Teacher and pupils have been developing their online learning skills exponentially, this has allowed us to maximise the learning time for as long as we need to learn remotely.

Microsoft Teams is a collaboration tool. That means that everyone in the Team can work together and help one another without the social distancing restrictions which we had in the classroom.

All teachers have been teaching digital skills as part of their subject since August 2020. Our abilities continue to develop. [Click here](#) for more info on how to use Teams.

If you forget your Glow password [click here](#) for instructions or email: [wlwhitburn-ac@westlothian.org.uk](mailto:wlwhitburn-ac@westlothian.org.uk) This will be reset as quickly as possible.

Data from pupils and teachers tells us that Health and Wellbeing is the most important aspect of online learning. Longer breaks are included while we are remote learning.

Not all learning tasks are suited to remote learning. That means teachers will prioritise the things which can be done most effectively online. We continue to plan and adapt for all our learners.
